Town Board Comments

Supervisor Bell had two items:

- **Comptroller's September Financial Report is ready for review**
- **Drainage District budget changes – This is Tabled because they are looking to lower the amount collected for maintenance and they are unclear on what that amount should be.**

Councilperson Rabasco had one item:

- **He wanted an update on where we were with Live Streaming Town Meetings. Supervisor Bell said they were awaiting the Contract from Spectrum which will contain \$12,500.00 we can use toward equipment. MJM is the company the Town has decided to go with for equipment and professional services. It was decided to move ahead and approve the proposal from MJM, contingent on the contract from Spectrum being approved and executed.**

Town Attorney – None.

Public Comments - None.

Meeting was adjourned 7:40 PM.
